

17th Feb 2025

PFAS Statement

The European Chemicals Agency (ECHA) published details of a proposed ban on the production, use, sale and import of over 12,000 Per and Polyfluoroalkyl Substances (PFAS). Synzen continuously monitors potential regulatory, safety, health, and environmental impacts of our products as part of our ongoing product stewardship and regulatory compliance efforts. As such, Synzen routinely reviews the material composition of our products to ensure alignment with local and international regulatory requirements. The listed products do not intentionally contain PFOS or PFOA materials, in compliance with the EU POPs Regulation (EU) 2019/1021.
